SOUND OUT

DFB

PET BY DFB 

Sound Out Panels are lightweight, and designed to greatly reduce noise. This multiuse panel system is offered in a variety of shapes, colors, and patterns. Compared to traditional panels, Sound Out Panels are lower in weight, therefore easier to handle and install.

Sound Out Panels are highly customizable, with the ability to print patterns directly onto the substrate, while still maintaining the acoustical properties. Panels can be mixed and matched to create various color combinations.

Containing 100% recycled material, Sound Out Panels are safe, non-toxic, and non-allergenic.

Specifications

- **Product:** Sound Out Panels
- **Composition:** 100% Polyester Fiber (PET)
- **Panel Thickness:** 1/2 in, 1 in, or 2 in
- **Maximum Width:** 4 ft
- **Maximum Length:** 8 ft custom sizes available up to 10 feet
- **Lead Time:** 6-8 weeks
- **Fire Rating:** ASTM E84 Class A
- **Acoustics:** ASTM C 423: 1" 0.8 NRC, 0.83 SAA; 1/2" 0.45 NRC, 0.43 SAA
- **Environmental:** Contains 100% previously recycled polyester fiber
- **Custom:** Custom sizes and shapes available upon request
