DFB

PET BY DFB

Sound Out Panels are lightweight, and designed to greatly reduce noise. This multiuse panel system is offered in a variety of shapes, colors, and patterns. Compared to traditional panels, Sound Out Panels are lower in weight, therefore easier to handle and install.

Sound Out Panels are highly customizable, with the ability to print patterns directly onto the substrate, while still maintaining the acoustical properties. Panels can be mixed and matched to create various color combinations.

Containing 100% recycled material, Sound Out Panels are safe, non-toxic, and non-allergenic.

Specifications

- **Product:** Sound Out Panels
- **Composition:** 100% Polyester Fiber (PET)
- **Panel Thickness:** 1/2, 1 or 2 inch (~12, 24, 48mm)
- **Maximum Width:** 4 ft
- **Maximum Length:** 8 ft custom sizes available up to 10 feet
- **Lead Time:** 6-8 weeks
- **Fire Rating:** ASTM E84 Class A
- **Acoustics:** ASTM C 423: 1" 0.8 NRC, 0.83 SAA; 1/2" 0.45 NRC, 0.43 SAA
- **Environmental:** Contains 100% previously recycled polyester fiber
- **Custom:** Custom sizes and shapes available upon request

SOUND OUT™ LANE

Linear grooves are carved into up to 2 layers of PET creating unique patterns. These acoustical panels are available in a single color or two colors, and are offered in various custom patterns.

- **Product:** Sound Out™ Lane
- **Composition:** 100% Polyester Fiber (PET)
- **Panel Thickness:** 1/2, 1 or 2 inch (~12, 24, 48mm)
- **Width:** 39" (recommended maximum width)
- **Height:** 94"
- **Lead Time:** 6-8 weeks
- **Acoustics:** ASTM C 423: 1" 0.8 NRC, 0.83 SAA; 1/2" 0.45 NRC, 0.43 SAA
- **Environmental:** Contains 100% previously recycled polyester fiber
- **Custom:** Custom patterns, sizes, and colors available upon request

Patterns to Inspire

KP Colors

The KP colors listed below are the base panel layer, while the KF colors are the top felt layer. Lane can be designed using a single color (KP colors) or two colors (KP + KF). Select your colors and then select your pattern.

SOUND OUT™ TIDE

Acoustical PET panels distinguished by their wavy pattern. Tide is available for a variety of applications, all offering acoustical solutions. Tide can be applied to the wall both vertically and horizontally.

- **Product:** Sound Out™ Tide
- **Composition:** 100% Polyester Fiber (PET)
- **Panel Thickness:** ~1.4" (35mm)
- **Width:** 32"
- **Height:** 94"
- **Lead Time:** 6-8 weeks
- **Acoustics:** Testing in progress
- **Environmental:** Contains 100% previously recycled polyester fiber.

SOUND OUT™ TIDE BAFFLES

Horizontal hanging baffles suspended from the ceiling. Tide Baffles can stand alone, be grouped with multiple hanging Baffles, or paired with our Tide wall panels, for ultimate sound absorption.

- **Product:** Sound Out™ Tide Baffle
- **Composition:** 100% Polyester Fiber (PET)
- **Panel Thickness:** ~1.4" (35mm)
- **Width:** 32"
- **Length:** 64"
- **Cable Height:** Custom
- **Hardware:** Powder-coated Aluminum
- **Lead Time:** 6-8 weeks
- **Acoustics:** Testing in progress
- **Environmental:** Contains 100% previously recycled polyester fiber.
