

Panel-Text™ + SWELL Element

FABRICS

Fabrics often used with this system are Maharam Gemma, Camira Blazer, and all Kvadrat Felts.

SUBSTRATES

DFB offers both acoustical or tackable substrates for our Panel-Text™ System. Whether you require panels that absorb sound, or panels where a long lasting tackable surface is needed, we have the solution that is best for you.

SWELL Element is the perfect accessory when paired with DFB's Panel-Text™ panels. This versatile design allows for a custom pattern. Standard configurations include 12" & 24" wide Panel-Text™ panels.

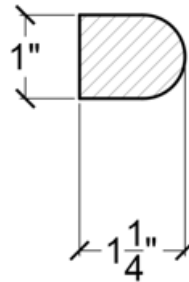

GFL
12" wide panels
